MEMORANDUM FOR: Director, FMSAC

SUBJECT : OCS Support to the AI Division

In the attached paper I have outlined an OCS plan for launching an effective working relationship in support of FMSAC's Activities Interpretation Division.

I think you will find it consistent with our previous discussions. However, please do not hesitate to suggest changes and modifications.

The paper is aimed at getting a program started for AID as quickly as possible and I would, therefore, appreciate your reaction to it by 28 January. At that time, I hope we will both be able to designate respective project officers.

After we have established this particular working relationship, I hope we can get together and talk about computer-related support to FMSAC on other fronts.

1-2
JOSEPH BECKER
Assistant Director,
Computer Services
